

Business Questions & Analysis

Q1. What is the overall sales performance?

The business generated approximately **\$40.03K in total revenue from 500 customers**, with an average order value of **\$80.06**. The average customer rating is **3.49/5**, while subscription penetration stands at **49%**.

Insight

Revenue performance is relatively balanced across the customer base, but the **49% subscription rate** indicates that approximately half of customers remain unsubscribed.

Recommendation

Focus on converting non-subscribers through targeted subscription benefits such as discounts, free shipping, loyalty rewards, or exclusive offers.

Q2. Which product categories generate the most revenue?

Accessories generated the highest revenue at approximately **\$10.97K**, followed closely by **Outerwear** at **\$10.66K**.

Insight

Accessories and **Outerwear** together contribute more revenue than the other individual categories, making them important revenue drivers.

Recommendation

Prioritize inventory availability and promotional campaigns for **Accessories** and **Outerwear**.

Q3. Which age groups contribute the most revenue?

Middle-aged customers generate the highest revenue, followed by **Senior customers**.

Insight

Older customer segments appear to contribute substantially more revenue than Young Adults.

Recommendation

Develop targeted campaigns for the Middle Aged and Senior segments while testing different pricing, promotions, and product messaging to increase Young Adult contribution.

Q4. What is the customer age distribution?

Middle Aged customers form the largest customer segment with **157 customers**, followed by Senior customers with **149**.

Insight

The customer base is concentrated among customers **aged 41** and above.

Recommendation

Marketing and product positioning should not focus exclusively on younger customers. The existing customer base suggests strong potential among mature customer segments.

Q5. How strong is subscription adoption?

Approximately **49%** of customers are subscribed, while **51%** are not.

Insight

The customer base is almost evenly divided between subscribers and non-subscribers.

Recommendation

The business has a clear opportunity to convert non-subscribers.

Q6. Which shipping method generates the most revenue?

Store Pickup generates the highest revenue at approximately **\$8.3K**.

Insight

Store Pickup and Standard Shipping are the strongest revenue-generating shipping methods.

Recommendation

Investigate why Store Pickup performs strongly and consider promoting it more aggressively where operationally feasible.

Q7. Which payment methods are being used?

Customer behavior → payment preference → sales

Recommendation

Ensure the most-used payment methods remain prominently supported, while testing incentives for less-used payment methods if they provide lower transaction costs or strategic benefits.

Q8. Does gender influence subscription behavior?

Male customers show slightly higher subscription adoption than female customers.

Insight

Subscription adoption is relatively balanced, but the difference suggests there may be an opportunity to test gender-specific messaging.

Recommendation

Don't assume gender itself causes subscription behavior. Instead, test whether **offers, product preferences, purchase frequency, or spending behavior** explain the difference.

Q9. Which products generate the most revenue?

Socks and **Handbags** are dramatically ahead of the other displayed **products** in revenue.

Insight

These products appear to be major revenue contributors.

Recommendation

Maintain strong inventory availability for high-performing products and investigate whether cross-selling them with lower-performing products can improve overall sales.

Q10. What should management focus on?

Based on the analysis, management should focus on:

1. Increasing **subscription** adoption.
2. Protecting **Accessories** and **Outerwear** revenue.
3. Retaining **Middle Aged** and **Senior** customers.
4. Increasing **Young Adult** contribution.
5. Maintaining availability of high-performing **products**.
6. Investigating the strong performance of **Store Pickup**.
7. Improving the overall customer rating of **3.49/5**.
